

Transcript of Motion made by County Judge Dan Gattis in WilCo Commissioners Court on September 30, 2008:

At the advice of our attorneys, I move to instruct our lawyers to communicate with TECQ (sic) that Williamson County requests that the 405-B (sic) permit be set for consideration by commissioners, and that the commissioners be aware that Williamson County asks Waste Management not to be named in the permit unless the commission determines it to be necessary by TCEQ rules and statutes.

(Seconded by Morrison, passed 4-1 with Birkman voting against.)
